## 2020 Summer Program

Littlest Angels Preschool  
1095 Cloud Avenue  
Menlo Park, Ca. 94025

(650) 854 -4973  
(License # 414000219)

**Children must be two (2) years old to attend any session.**

**The Pre-K Class is for 4/5 year old children who have not yet attended Kindergarten.**

Littlest Angels' summer program follows a rhythm that is similar to our school year program. Our camps are three weeks long and each offers an exciting theme. This program is staffed by the same high-quality teachers who work during our school year program. Each session will give each camper the opportunity to experience theme related vocabulary words and facts, music, science, pretend play, creative art experiences, counting, and color, shape and letter recognition.

A morning snack will be provided. Children in the 9:00 – 1:00 program are to bring a lunch—microwaves are available to warm food.

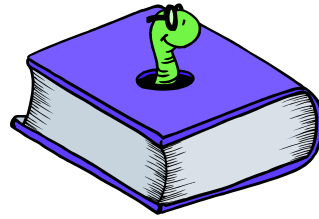

Come join us for enrichment, socialization, exploration, and most of all some SUMMERTIME FUN!

**OUR SUMMER PROGRAM IS FILLED ON A FIRST COME-FIRST SERVED BASIS—SO SIGN UP EARLY TO GUARANTEE A SPOT FOR YOUR CHILD!**

Session 1  
June 8 - 26

Book Worms!

Words, wonderful words! We are going to have a splendid time with some of our best loved authors and their books! Research shows that to develop into lifelong readers, children need opportunities to learn to love books. The printed word will come to life in creative arts, dramatic play, and puppetry. All the little book worms out there are encouraged to join us for this literature rich theme!

**NO SUMMER PROGRAM JUNE 29 to JULY 3**

Session 2  
July 6 - 24

Starry, Starry Night!

What happens when the sun goes down? This theme will be a hoot and a half because it's all about owls and other creatures of the night. When we sleep, things are happening! People work, animals wake up, and the moon, stars and planets shine! We will wake up our senses as we explore all these extraordinary things! And of course, children sleep at night so we will enjoy the greatest pajama party day ever!

Session 3  
July 27 – August 14

“How Does Your Garden Grow?”

Little ones are sure to “dig” this collection of learning opportunities about gardening. Gardening is a natural way to observe the cycle of life. As children prepare the soil, plant seeds and seedlings, water them and watch and wait to see what happens they will have a hands-on experience of exactly how a garden does grow! We’ll also look at some creatures that lend a hand in the garden!
